The General Class is the second of the three ham radio licenses. It offers you more HF privileges plus voice and digital operation on the popular HF bands; therefore, enabling you to make contacts around the world on the HF bands.

“... the ARRL General Class License Manual does more than just help you memorize the answers in the question pool. Each topic is addressed in sufficient detail to help you learn the “why” behind the rules, the “what” of basic electronics, and the “how” of amateur operating practices.” - ARRL

It is the intention of the instructors to use the ARRL manual to provide a more in-depth course, at a slower pace, and presented in simpler terms for a better understanding of the material.

Latest enrollment date is December 28, 2021 and money will be collected when you receive the book or the first day of class.

If we have bad weather, then we would do the class via Zoom for that week.
